TEACHING DANCE ESSENTIALS

START HERE

Your guide to every lesson, every action and your notes, in one place.

WELCOME

This workbook is your guide and reference for **Teaching Dance Essentials**. Return to it throughout the course to follow the order of the lessons, watch the videos, find resources and tick off your actions as you go.

Teaching Dance Essentials is a course for new dance teachers of every style, from salsa and swing to tribal fusion, hip hop, women's dance and ecstatic dance. You'll learn the leadership and facilitation skills to plan a class and hold a group with confidence, and the business and marketing of dance. Learn at your own pace, and let your understanding of yourself as a teacher unfold.

How this works. Your lessons live in our shared Google Drive folder. Once Aalia adds you, every Watch button opens the video. The course is self-paced, so go at whatever rhythm suits you. To keep your ticks, save this PDF and open it in Adobe Acrobat Reader or your phone's PDF app.

THE BUSINESS OF DANCE

All things business of dance. I share what I've learned from 15 years as an entrepreneur: what's working right now on Instagram, how to communicate with clients, and simple structures for tracking your numbers and profits.

Pace yourself. Already run a business? Skim the videos and focus on your bio. New to this? Take it slowly. There's a lot here, and you can keep coming back to it.
